INDEX—VOL. XII.

A

Anthracite Coal, Hints on the Burning of, 5.
Astoria, Proposed Channel Through, 6.
American Patents, Recent, 22, 38, 70, 86, 102, 118, 134, 150, 168, 182
Agglomere, The Beton, 102.
Artificial Light, 182.
Artificial Diamonds, Production of 150.
Anti-Carbonizing Process, Herman's Patent, 97.
Ammonia from Gas, and Utilization of the Product, The Extraction of, 181.
Amalgams, 181.

B

Belly-Band Fastener, Horne's Improved, 20.
Bronze, Method of Giving a Good Face to, 68.
Boiler Composition, Incautious Use of, 117.
Boiler Inspection, Steam, 149.
Boiler Incrustation, Prevention of, 166.
Boiler Explosions, 180.
Belt to Drive a Given Horse Power, Proportion of, 22.
Boilers, Heating Surface of, 33.
Bath Gas Light Co., Report of the, 86.

C

Coal Matters, Western Gas and, 4.
City of London, The Gas Supply of the, 6.
Chicago, The New Tunnel in, 20.
Coal Gas, Extraction of Benzol from, 22.
Coal, Fall in the Price of, 22.
Coal Sale, The Monthly, 36.
Carbonic Acid, Inhalation of, 50.
Coal in China, 85.
Compressed Air, Street Cars Run by, 86.
Canal, The Suez—Opinion of a Leading Engineer, 130.
Company, New Gas, 149.
Croton Water, 150.
Carré Apparatus and Common Ice, Comparison of the Refrigerative Effects of the, 168.
City of Boston, Cost of Lighting the, 166.
Coal by Exposure to the Air, Deterioration of, 180.
Caisson for the East River Bridge, Sinking the, 181.
Callender No-chimney Burner, The, 17.
Caloric Engine, The, 49.
Correction, 57.
Correspondents, Answers to, 41, 57, 73, 104, 121, 159.
Correspondence—
Letter from Abroad, 21.
Complimentary, 21, 37, 149, 165.
What is Thought of the Journal as an Advertising Medium, 21.
About Gas Matters, 21.
An Honest Man, 37.
Answer to Inquirer about Exhausters, 37.
Improved Patent Oxide of Iron, 37.
New Gas Works at Englewood, N. J., 37.
Experience of a Gas Engineer, 53, 69.
Information Wanted, 53.
Answer to John Keeling About Exhausters, 54, 69.
Experimenting with Hydrogen Gas, 69.
A Contradiction, 69.
Iron vs. Clay Gas Retorts, 69.
A Word in Favor of Clay Retorts, 59, 85.
Vindication of Fire Clay Manufacturers, 85.
Gas Matters in Cleveland, O.—In favor of Clay Retorts, 101.
Some Objections to Clay Retorts—In Favor of Iron 101.
About Exhausters—In Favor of Clay Retorts, 101.
Refutation of an Attack on Gas Companies Concerning their Meters, 101.
Seeking for Information, 118.
Interesting Letter from a Gas Engineer, 133.
Freaks of Lightning with Gas, 149.
Commendatory, 165.
An Explanation Required, 165.
Law Relating to Gas Companies, 165.
What a Subscriber Thinks a Copy of the Journal is Worth, 165.
Strange Freak of Lightning, 182.

D

Dip Pipe, Gibson's Substitute for, 1.
Drill, Reamer, and Tap Humphrey's Pat, Combined, 2.
Dry Air from Heating Furnaces, Is Water Necessary to Mitigate the Effects of, 65.
Dust and Disease, Prof. Tyndall's Lecture on, 114.
Disease, Oxygen Gas in, 164.
Door Spring, Mishler's Improved, 178.
Dunbar's Gas Retort Setters' Guide, 38, 70.

E

Escape of Gas from India-rubber Tubing, To Prevent the, 117.
Excavating Coal, Machine for, 178.
Eminent Chemist, Death of an, 182
Editorials—
Noxious Gasses—Remedies and Antidotes, 8.
The Gibson Substitute for the Hydraulic Seal and Dip Pipe, 8.
Largest Hotel in the United States, 9.
Monthly Magazines, 9.
Multum in Parvo, 9.
Happy New Year, 9.
Improvements in Gas Manufacture in England, 14.
Towle's Grade and Drainage Level, 24.
A Progressive Age, 40.
Kidd's Gas Consumers' Guide, 40.
Rochester Gas Works, 41.
The Use of Gas as Fuel, 56.
Report of the Water Companies of Jersey City, 56.
Special Notice 56, 153.
New Reservoir Demanded for Brooklyn, 56.
Annual Report of the Northern Liberty Gas Company, 56.
Errors of Scientific Writers, 72.
Sterry Hunt on the Chemistry of Copper, 72.
Notice of New Books etc, 72.
Prof. Tyndall's Lecture on Dust and Disease, 88.
The Petroleum Gravity Question, 88.
Some Things as Well as Others, 88.
The Beebe Gas Well Ontario Co., 104, 120.
A practical Application of Farmer's Theory, 104.
The Geology of the Gas Wells of the Eastern United States, 104.
Wyckoff's Wooden Gas and Water Pipe, 120.
Note on Gas Purification, 120.
The Harlem Company and the Murphy Run Coal, 136.
What is Thought of the Journal, 136.
The Utilization of Heavy Hydro carbons for Increasing the Light of Coal Gas, 137.
About Exhausters, 152.
Aqua Pura, 152.
The Synopsis of British Gas-Lighting and Matrimony, 152.
Chemical Analysis of the Gas of the Harlem Gas Light Company, 168.
New School of Metallurgy, 169.
Smith & Sayre Manufacturing Company, 169.
The Murphy Run Coal, 184.
Qualifications Necessary to Constitute a Successful Engineer, 184.

F

Foretelling the Weather, A Table for, 164.
Furnaces, Gas, 152.

G

Grade and Drainage Level, Towle's, 17.
German Study Lamp, St. Germain or, 33.
Gas Meter, Trumbore's Improved, 37.
Gas Pipes, Street Box for, 114.
Gas Works, The Louisville, 130.
Gas Works, Peoria, 130.
Gas, Lighting Mines with, 145, 170.
Gas Items, 149.
Gas and Water Pipe Coupling, Smith's Patent, 161.
Gas Lime, A Concrete from, 164.
Gas Retort Settings, Curley's Improved, 177.
Gas Bill—In Assembly, 36.
Gas for Public Use, Oxygen, 68.
Gas Burner Regulator, Gill's Patent, 100.
Geological Views, New, 182.

H

Horse Power, 20.
House Sewage on Lead Pipes, On the Action of, 21.
How Phosphorus is made, 54.
Heating Apparatus, Electro, 70.
Hartford Steam Boiler Inspection and Insurance Company, Monthly Report of the, 165, 181.

I

Illuminating Gas from Coal and the Utilization of the Waste Products, Manufacture of, 5.
Improved Lamp, West's 65.
Illuminating Gas from Mineral Oils, New Facts About the Manufacture of, 70.
Ice, The Manufacture of, 104.
Item, Gas, 166.

L

Light, Phosphoric, 146.
Liquid Fuel, French Experiments with, 166.

M

Miscellenea, 34, 70, 118, 134, 150.
Mineral Oils Used for Lamps, The Mode of Testing, 84.
Metalline—A New Invention, 146.
Men, The Oil, 22.
Machine, A Speaking, 100.

N

News, Petroleum, 114.

O

Oil Men, Important to, 166.

P

Practical Engineering, New York Society of, 4, 36, 100, 149, 165.
Petroleum Production, 22.
Petroleum, Crude, 86.
Petroleum and Naptha, Distinction Between, 98.
Pye's Patent Locks, 129.
Purity of Croton Water, Prof. Chandler on the, 132.
Pumps, 145.
Paint To Clean, 147.
Power, Water, 21.
Publications, New, 169.

R

Repertory, Chemical, 2, 18, 34, 50, 66, 82, 98, 116, 132, 147, 179.
Railway of New York, Pneumatic, 21, 68.
Refining Iron, New Process of, 22.
Rochester Gas Works, Extension of the, 53.

S

Suez Canal, Opening of the, 6.
Setting Boilers, Mode of, 35.
Safes, 97.
Street Lamps, Miner's Patent, 113.
Steam Generators, Improvements in, 163.

T

Time, Difference of, 68.
Turbine Water Wheel, Reyno'd's, 115.
Tunnel Projected, A Great, 148.
Telescope is Doing, What the, 161.

V

Vertical Steam Engine, The "Rider," 81.

W

What in the Sun is the Matter? 85.
Water, Boiling, 110.
Water Pipes, Manufacture of, 164.

INDEX—VOL. XII.
